

■ Sacci Slipbelt

The Slipbelt is a flexible belt with integrated rail system. Enables you to slide the controller sideways when not in use. Our Metal carabiners attached to the rail ensures maximum flexibility.

■ Sacci Hook

Innovative and unique solution that enables quick removal and putting on of the equipment but at the same time provides good ergonomics. Now available with adjustable rail system and metal carabiners.

■ Sacci Harness Basic

For longer work shifts and maximum comfort. The metal Carabiners is adjustable in any direction.

■ Sacci Neck Strap

Our neckstrap fits most controllers on the market and is padded for a comfort fit against the neck.

We deliver carrying systems for your control unit

Do you work all day with your equipment? Do you need better ergonomics and usability than your standard OEM belt? Regardless of what brand you are using, we will help you find the optimal carrying system for your daily work. With unique rail systems and metal carabiners we fit most controllers on the market. Our in-house developed products are both ergonomic, light and flexible to streamline your working day, always with you as a user in focus.

From Torsång to the world. With our roots in between the forests and the winding river in Torsång, Sweden, the family company has delivered backpacks and carrying equipment for extreme conditions for over a hundred years. Already from the start it was the craftsmanship, innovativeness and quality of our products that made us renowned.
