

FEED SCREW OF THE HOLLOW CORE CASTING MACHINE

TILE TYPE	P27/P37	P32/40/50	P20
Feed screw assembly	KP-5	KP-4	KP-6
OEM number	Z100196E	Z111721E	Z111321E

The hollow core casting machine's feed screw set is available for different machines based on the slab's type. The material used is high-quality cast iron alloy. The bearing housing sleeve is always pre-installed at the factory.

The wear resistance of the hollow core casting machine's feed screws is the result of extensive development by KP Parts. Test results show they resist wear up to 30% better than other products on the market. Improving wear resistance and maintaining high production efficiency have been the focus of our development work.

We supply hollow core casting machine's feed screws both as original parts and as in-house manufactured parts with improved wear resistance, directly from our Vantaa (FI) warehouse.

OUR SERVICES FOR INDUSTRIAL NEEDS

KP CRANES

INDUSTRIAL AND OVERHEAD CRANES

There are various lifting needs in the industry for which we can find an agile and reliable solution, even custom-made if necessary. Our smart solutions for crane lifecycle management support data-driven decision-making. With our crane remote monitoring services, you are informed of upcoming crane maintenance based on the crane's actual use and lifts.

KP CRANE INSPECTIONS

CRANE INSPECTIONS

Predictive maintenance and periodic inspections always provide e.g. a good overall picture of the condition of a overhead crane. Planned maintenance before the inspection ensures that there are no issues requiring separate service visits. This way, both risks and costs are anticipated and managed, while also ensuring the uninterrupted operation of the crane.

KP SERVICE

INDUSTRIAL MAINTENANCE

At the core of our expertise is still the maintenance of production plants, focusing on equipment maintenance and spare parts services for the precast concrete industry, as well as modernizations. Additionally, you can benefit from our professional expertise in various heavy industry projects and shutdowns.

KP PARTS

SPARE PARTS AND CONSUMABLES

High-quality spare and consumable parts enable successful maintenance for your equipment, ensuring safe operation and a long lifespan. Our spare parts service offers fast delivery times and good availability, helping you optimize the maintenance window. Our range includes spare and consumable parts for hollow core casting machines, production equipment, and overhead cranes.

Fast and high-quality service is ensured by strong local expertise and our comprehensive service network. KP-ServicePartner Oy is a Finnish family owned company, which was established in 2003. We operate in 14 locations in Finland, employing around 100 industrial professionals.
