

HOLLOW CORE SLEEVES

Sleeves for hollow-core slab casting machines tailored to the customer's specific slab cross-section. Manufactured from high-quality cast iron alloy, the wear resistance of the hollow core sleeves has been carefully optimized to match the durability of KP Parts' own feed screws, ensuring balanced wear and reliable long-term performance.

The enhanced wear resistance is the result of extensive product development by KP Parts, which takes into account demanding operating conditions, including Nordic aggregates and concrete mix designs.

Independent testing shows that KP Parts' hollow core sleeves can offer up to 30 % better wear resistance compared to market's standard solutions. This enables longer production runs, improves overall production efficiency, and helps to reduce both production downtime and carbon footprint.

We supply hollow core sleeves as original spare parts as well as in-house solutions with enhanced wear resistance — all delivered directly from our warehouse in Vantaa.

OUR SERVICES FOR INDUSTRIAL NEEDS

KP CRANES

INDUSTRIAL AND OVERHEAD CRANES

There are various lifting needs in the industry for which we can find an agile and reliable solution, even custom-made if necessary. Our smart solutions for crane lifecycle management support data-driven decision-making. With our crane remote monitoring services, you are informed of upcoming crane maintenance based on the crane's actual use and lifts.

KP CRANE INSPECTIONS

CRANE INSPECTIONS

Predictive maintenance and periodic inspections always provide e.g. a good overall picture of the condition of a overhead crane. Planned maintenance before the inspection ensures that there are no issues requiring separate service visits. This way, both risks and costs are anticipated and managed, while also ensuring the uninterrupted operation of the crane.

KP SERVICE

INDUSTRIAL MAINTENANCE

At the core of our expertise is still the maintenance of production plants, focusing on equipment maintenance and spare parts services for the precast concrete industry, as well as modernizations. Additionally, you can benefit from our professional expertise in various heavy industry projects and shutdowns.

KP PARTS

SPARE PARTS AND CONSUMABLES

High-quality spare and consumable parts enable successful maintenance for your equipment, ensuring safe operation and a long lifespan. Our spare parts service offers fast delivery times and good availability, helping you optimize the maintenance window. Our range includes spare and consumable parts for hollow core casting machines, production equipment, and industrial cranes.

Fast and high-quality service is ensured by strong local expertise and our comprehensive service network. KP-ServicePartner Oy is a Finnish family owned company, which was established in 2003. We operate in 14 locations in Finland, employing around 100 industrial professionals.
